|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Memberikan kemudahan untuk melakukan penempatan dan pencairan dana deposito secara online dimanapun dan kapanpun tanpa harus datang ke kantor cabang dengan imbal hasil yang kompetitif.<br>2. Terdapat variasi tenor yang dapat dipilih sesuai dengan kebutuhan.<br>3. Terdapat variasi pilihan jatuh tempo yang dapat dipilih.<br>4. Tersedia elektronik advis ( <i>e-advis</i> ) deposito dalam bentuk PDF. | <b>Risiko</b><br>1. Tidak dijaminnya deposito Nasabah apabila:<br>a. Nominal saldo simpanan pada SMBC Indonesia melebihi Rp2.000.000.000,- (dua miliar Rupiah); dan/atau<br>b. Suku Bunga melebihi tingkat bunga penjaminan Lembaga Penjamin Simpanan ("LPS").<br>2. Adanya risiko pasar terkait suku bunga dimana jika ada kenaikan suku bunga, Nasabah tidak dapat menikmati kenaikan tersebut selama penempatan belum jatuh tempo. Sebaliknya penurunan suku bunga di pasar juga tidak mempengaruhi simpanan Nasabah.<br>3. Adanya risiko bunga berjalan tidak dibayarkan dan adanya biaya administrasi untuk pencairan deposito sebelum jatuh tempo. |

|  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
